

SUMMARY OF AVAILABLE DATA, PLANS AND STRATEGIES RELEVANT TO THE NORTHUMBERIA COAST SPA

Monitoring, data and evidence

A summary of general MPA data sources can be found [at this link](#)

The following site specific data or evidence is also available for the Northumbria Coast SPA:

Owner of data or evidence	Name	Description of data or evidence	Availability
Natural England	Tern Verification Surveys for Marine Sites	Natural England commissioned these surveys to verify modelling work on terns carried out by the JNCC. The results were be used to help define the potential boundaries of marine SPAs by identifying the limits to important foraging areas for each species at each recently regularly occupied colony. The report includes details of surveys on the Northumberland coast.	Available to download
Natural England	Berwickshire Intertidal Rocky Reefs	Report on surveys of the intertidal rocky reef commissioned for the Berwickshire and North Northumberland Coast Special Area of Conservation (SAC) by the Improvement Programme for	Available to download

		<p>Englands Natura 2000 sites (IPENS). The site was surveyed during August 2013 with the aim to survey and quantify the extent of the rooky reef intertidal feature in order to provide evidence for assessing changes within the site and to be able to monitor future changes. An assessment of anthropogenic influences, impacting on identified features, such as coastal defences, and damaging or potentially damaging activities, was undertaken and mapped where possible.</p>	
Natural England	NBN 2002 English Nature/ASM survey of Berwickshire and North Northumberland Coast	Excel spreadsheet of species records from the National Biodiversity Network (NBN) Gateway.	Available to download
Natural England	NBN 2002 English Nature/CALM Berwickshire & North Northumberland Coast Rocky Shore transects	Excel spreadsheet of species records from the National Biodiversity Network (NBN) Gateway.	Available to download
Natural England	Site Condition Monitoring Data	Condition assessments of the individual terrestrial/intertidal SSSIs which underpin SAC, SPA, and MCZ designations.	Details of individual SSSIs can be viewed on the Designated Sites View website

Defra	MAGIC website	Habitat maps and site boundaries	https://magic.defra.gov.uk/
